### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Change the title to "Method and apparatus for estimation of image magnification levels"

### *Allowable Subject Matter*

2. Claims 1, 2, 4-11, 13-21, and 24 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest cited prior art (Yoritsugu et al. (JP 10-126614 A)) fails to teach all of the limitations set forth in the broadest independent claim (24). The more limiting independent claims and the claims that depend therefrom are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Gasper et al. (USPN 5,752,152) teaches a magnification estimation technique in a copy restrictive environment
- Tada et al. (USPN 4,893,195) teaches using a predetermined pattern of dots in a magnification estimation technique.
- Ishida et al. (US 2003/0117516) teaches object detection using magnification information.
